Description

A. Description of overall philosophy (200-word limit):

Our philosophy is that students with exceptionalities are entitled to the support necessary from all stakeholders to maximize their potential within the context of Free and Appropriate Public Education (FAPE). The mission of InspireNOLA Schools is to transform and inspire an educational movement. Within the context of this mission, Exceptional Student Services Department ensures all educators maximize instruction and set high expectations for all students with an exceptionality. Using a whole-child approach, InspireNOLA promotes meaningful college and career preparation for post-secondary pursuits. InspireNOLA's Exceptional Student Services follow federal and state laws regarding the education of students with disabilities as well as those who are identified as Gifted and/or Talented. In addition to the academic, social-emotional, behavioral and enrichment services provided to students, related services are implemented based on scholars' Individualized Education Programs. All services reflect procedures that are substantiated with scientific based researched practices for classroom instruction. To assure that we properly identify students whom we suspect of having a disability, our Pupil Appraisal Team follows the regulations outlined by Louisiana Bulletin 1508 Pupil Appraisal Handbook. Thereafter, all students identified are provided FAPE.
